

NEW COOPERATION WITH VFF (Vereinigte Füllkörper Fabriken)

From the **1st of June** Thurne Teknik represents the German company **VFF**, Europe's largest manufacturer of tower packing, catalyst bed support and column internals.

VFF fits well into the product portfolio of Thurne Teknik, giving good synergy with Montz, our manufacturer of structured packing. We now offer internal parts for any column application, 100% made in Germany.

Our applications e.g:

- Absorption
- Desorption
- Distillation
- Extraction
- Drying
- Cooling
- Humidification
- Water treatment
- Desalination
- Heterogeneous catalyst reactors

OUR PRODUCT AREAS:

- > **Catalyst Support**
DURANIT® inert balls, DuraTop®
- > **Random Packings**
Novalox®, Berl saddles, Pall® ring
Cylindrical ring, 1 cross, 1 web
Grid block, Twin-Pak®, VSP®, Top-Pak®
Interpack®, Novalox®-M, NetBall®
Igel®
- > **Column Internals**
Liquid and Vapour Distributors
Support Plates & Grids
- > **Sealing/Backfill Material**
Hydron pellets, Clay balls

WHY SHOULD YOU CHOSE VFF PRODUCTS?

- > wide variety of materials: metals, ceramics, plastics (PE, PP, PVDF, ECTFE, PVC, PFA)
- > own innovative product development and patents, ie. VFF Twin Pak, Igel, VSP, Netball
- > column design calculations with VFF software, also available to our clients
- > inhouse-production of all ceramic, plastic & metal products
- > 100% Made in Germany
- > very quick response to urgent requests

Do you want to know more about our product scope or discuss your future projects?
