INVITATION

Separation seminar in Kokkola, Finland on Tuesday 10.11.2015

**You are warmly welcome to hear about liquid- solid separation
solutions and dust-free powder handling!**

The topics cover equipment solutions to secure safe and dust-free production environment in different separation processes.

Thurne Teknik has represented equipment manufacturers in separation solutions since 1960's. This seminar will be cooperated with Andritz Separation, Andritz KMPT (Krauss Maffei Process Technology) and DEC group.

Place: Kokkola, Port Tower (Satamatie 330)

Time: Tuesday 10.11.2015 at 9:00 – 16:00

Agenda:

- 08:30 – 09:00 Breakfast
- 09:00 – 11:45 Different solutions with Andritz KMPT disc- and drum-filters
(Bernard Sojer, Sales and Project Manager, Andritz KMPT)
Filter press- chamber versus membran
(Karl-Heinz Schmitz, Product manager, Andritz Separation)
Decanters – the different possibilities for different applications
(Alexander Hild, Sales engineer, Decanters, Andritz Separations)
Technical solutions to achieve a safer powder handling and minimizing air born dust
(Frédéric Dietrich CEO Dietrich Engineering Consultants s.a)
- 11:45 - 12:45 Lunch
- 12:45 – 14:00 Achieving the right particle size: Compaction, lump breaking, milling and micronization.
(Henrik Ramm-Schmidt, Branch Manager, Thurne Teknik Finland)
Centrifuges for drying processes
(Bernard Sojer, Sales and Project Manager, Andritz KMPT)
- 14:00 – 14:30 Coffee
- 14:30 – 16:00 Final drying
(Bernard Sojer, Sales and Project Manager, Andritz KMPT)
Service, spare parts and optimization
(Jenny Snellman, Product Manager, Thurne Teknik Finland)
